Web Development Excellence Award

Skills

Html,Css,Javascript,Git,Jquery,python,php,node.js

Projects

- Developed a personal portfolio website using HTML, CSS, and JavaScript, showcasing my skills and projects.
 - Built a simple JavaScript-based game, implementing key programming concepts such as event handling and DOM manipulation.
 - E-commerce Website: Create an e-commerce website where users can browse products, add them to a shopping cart, and proceed to checkout. Implement features such as user authentication, product search, and payment integration for a comprehensive showcase of your skills.
 - Online Learning Platform: Develop an online learning platform where users can access courses, view video lectures, complete quizzes, and track their progress. Include features like user profiles, course recommendations, and progress tracking.
-

Additional skills

- Responsive Web Design: Ability to develop websites that adapt and display properly on various devices and screen sizes, utilizing techniques like fluid layouts, CSS media queries, and responsive frameworks like Bootstrap.
 - Debugging and Troubleshooting: Problem-solving skills and experience in identifying and resolving issues in web applications using debugging tools, browser developer tools
 - Search Engine Optimization: Knowledge of SEO best practices, including keyword research, on-page optimization, meta tags, URL structure, and optimizing website performance for search engines.
 - Web Performance Optimization: Understanding of techniques to optimize website performance, such as minification, caching, image optimization, lazy loading, and reducing server response time
 - Adobe Photoshop: Basic knowledge of image editing and optimization for the web.
